Yet Somewhat More Assuring Are Reports From China As to Fate of Foreigners.

SAME MAY STILL BE ALIVE

Fighting at Tien Tsin Continues Fiercely As Ever—Allied Forces Drove Off Chinamen—Are Hard Pressed.

JAPAN IS SENDING MORE TROOPS.

LONDON, July 9, Evening.—The latest reports from China are still somewhat assuring though conflicting.

Though there is nothing from Peking later than the 3d, when it was said the foreigners were still holding out, there is a report from Shanghai to-night saying Prince Ching's army had succeeded the Peking foreigners and are defending the ministers.

CHE FO, China, July 9.—The fighting at Tien Tsin continues. The allied forces repulsed a hard attack Friday last. Five hundred Chinese were killed or wounded. The defenders were hard pressed indeed.

YOKOHAMA, July 8.—The Japanese government has decided to immediately increase its forces in China to 20,000 men and 6000 horses.

JUDGE SANDERS'

MILL GROUND TODAY—MANY OFFENDERS BEFORE HIM.

The Most Important Cases Were Continued—Like Scott was Held Over to Await Action of Grand Jury.

Sterling Fitzgerald, colored, who cut Allen Johnson several days ago and escaped, was yesterday caught and will be tried tomorrow for malicious cutting.

The case against Given Greer and Prather Witherspoon, colored, for detaining two colored girls against their will, was continued until Wednesday.

Mary Hansely, colored, who was arrested in Cairo on an old charge of malicious cutting Aggie Singleton, colored, and for whom a requisition had to be secured, was brought back Saturday and the case against her was set for Thursday.

The case against Ike Scott, colored, who was arrested on an old charge of cutting her, was finished, the court having left it open until the woman could be brought back. He was held to answer.

The first fine under the "move-on" ordinance was assessed today. Grant Howard, who obstructed the market place Saturday afternoon and refused to move on when asked by Market Master Bailey, was fined \$5 and costs.

A case against George Danner, colored, for assaulting Leta Parker, colored, was left open until tomorrow.

The case against John Williams, colored, for tearing Bonnie Wilson's clothing, was dismissed. He is the man who was cut by the woman several days ago, for which she was held to answer.

John Stetson was fined \$5 and costs for throwing a stone at Grant Dollar, a one legged boot black.

Julian Suddeth, a colored boy about whom there has been a great deal of complaint, was fined \$5 and costs for being on the streets after the curfew whistle had blown.

COUNTY COURT.

Only One Will Was Admitted to Probate.

The regular term of county court was held this morning by Judge Tully. An agreement was read between Thomas Griffin and his sister, Cornelia, by which she should die the other was to get all his or her property. The paper was probated as Thomas Griffin's will.

In the suit of the city against Oelshlaeger for the condemnation of property for South Seventh street extension, Messrs. S. B. Caldwell, Joe Mattison, and U. S. Walston were appointed commissioners. A number of settlements were made with guardians and others.

CALL FOR CONVENTION

Of Republicans of McCracken County for Saturday, July 14th, at the City Hall.

By authority of the state central committee, the county committee of McCracken county met July 5th and ordered a county mass convention of the Republican party to be held at the city hall in Paducah, Ky., on Saturday, July 14th, at 2 o'clock p. m., for the purpose of sending delegates to the state convention to be held at Louisville, Ky., July 17th, 1900; said state convention is to be held for the purpose of nominating a candidate for governor of the state of Kentucky.

The Republican electors of this county, and all voters who are opposed to Goebels, theft of office; those who believe in a rule by the majority, who fear ballot and fair count; those who desire to redeem our state and perpetuate the fundamental principles of our government; those who value their civil liberty and political freedom, to these and to all good citizens we extend a cordial invitation to participate in this convention and urgently request their attendance.

REPUBLICANS

IN LOUISVILLE TODAY CONFERRING AS TO STATE CANVASS.

Congressional Field in First and Third Districts to Be Left to Independents to Handle.

LOUISVILLE, July 9.—A number of the most prominent Republicans of the state are this afternoon conferring relative to the state and congressional canvasses. Judge Yerkes is with the conference. John Marshall is presiding. The crowd is very sanguine of victory all along the line. It is said the conference will decide there shall be no party action for congressmen in either the First or Third districts unless the anti-Goebelsites decline to put in good men. The idea is to leave the field to the independents and to assist them all within the party's power to win a victory.

COUNTY TEACHERS.

The Annual Institute Began at Longfellow Building Today.

The McCracken County Teachers' institute began at Longfellow building, Fifth and Court streets, this morning, and will last until Friday evening.

Prof. Joseph Ragsdale, a graduate of the Paducah schools, but now of South Judson, Ind., assisted by County Superintendent James W. Hughes, of the city, will conduct a profitable session is promised.

There are about forty teachers in attendance, one dozen certificates of illness being received.

Miss Evans Langston was chosen secretary, and the following committees appointed:

Program, Prof. W. W. Morris and L. W. Feezor and Miss Willie Holland. Resolutions, Prof. J. W. Smart and Miss Zetta Furell and Ruby Knott. This afternoon "School Management" will be discussed.

ADDITIONAL PERSONALS.

Miss Katie Metz, a popular young lady of Caseyville, returned to her home this morning after a pleasant visit of six weeks at Mrs. A. T. Bohannon's.

Mr. H. H. Pullen, of Mayfield, is at the Palmer.

Mr. Leonard Jones is in Chicago on business.

Captain Ed Farley and wife and Mr. John Farley leaves tomorrow for Whittemore, Ia., to attend a reunion of the Farley family. From there they will make a tour of some of the northern lakes.

ROBBERS

Two of Them Caught Almost Red-Handed at an Early Hour This Morning.

WAGGONER'S SAFE OPENED

The Robbers Were Frightened Away and Did Not Get Away With Any Booty.

PRELIMINARY TRIALS TOMORROW

One of the most daring deeds committed in Paducah in sometime was the blowing of Mr. Cal Waggoner's safe at the "Tyroner" saloon, 110 South Second street, about 2:30 o'clock this morning.

The bold marauders made a clean job of it, but were doubtless frightened away, as nothing was missed except a small glass of nickles.

Mr. D. Ritloff, a merchant next door to the "Tyroner," heard the men, but saw only one, and he at first went quietly to the corner, returned and doubtless gave the word, and in a second Mr. Ritloff heard the explosion.

The men ran up the street together, but were seen plainly by Mr. Ritloff. Officers Singery and Goureaux came up a few moments after the explosion and were sent away in the direction the men took, by Mr. Ritloff, and soon had two men under arrest. Mr. Waggoner came down to open up about fifteen minutes later and found quite a number of people standing in front of the saloon. The side door, through which the robbers gained entrance, was standing open. The back doors were securely barred.

The house was completely filled with smoke. The electric lights behind the bar had been turned on to facilitate the work. A glass that had contained nitro glycerine set near the safe, and the safe itself was a wreck. While the job was a complete one, it was nevertheless a badly bungled one. The powerful explosive had been poured into the crack of the door and touched off.

The inside safe door was not locked. In one drawer was \$350 in paper, in another \$70 in silver, and none of this was touched, indicating that the safe blowers were frightened away.

A cigar box filled with silverware and other valuables, sent down for safe keeping by Mrs. Waggoner, who left the city on a visit Saturday, was found in the rear of the saloon, where it had probably been abandoned in the hasty flight of the safe blowers.

The two men arrested gave the names George Wilkerson, of New Orleans, and Charles Richards, alias "French," of Cairo. They are not what would be called young men, and were arrested at the Klondike.

One of them was wet with perspiration and the fumes of the nitro glycerine could still be detected in his clothing after the city hall was reached. Nothing incriminating was found on either of them.

Mr. Ritloff identified one of them as the man he saw keeping watch.

Tige Pool, who was asleep over the saloon, identified them, also. They first went to him with a bottle of whiskey taken from the bar and attempted to force him to drink it, their intention being, it is supposed, to get him out of the way. The men have little to say about the business.

Officer Tom Orr arrested two young men from Eddyville who gave the names of Robertson and Marshall sometime after the affair. Several people claimed to have seen them running out of the alley directly after the explosion. The young men came down on the excursion yesterday, however, and were finally released, there being no evidence against them.

The preliminary trial of the other two men is set for tomorrow before Judge Sanders.

FUNERAL TODAY.

Remains of Mr. John O'Brien Have Been Laid to Rest.

The funeral of the late Mr. John O'Brien, whose sudden death was chronicled Saturday, took place at 9 o'clock this morning from the St. Francis De Sales church, interment at Mt. Carmel. Many sorrowing friends paid their last respects to the dead.

Miss Emma Russell, aged 13, daughter of Mr. W. G. Russell, of Lovelaceville, died yesterday from spinal meningitis. The funeral took place today.

The burial of the late Mrs. Nancy Spratt took place at Oak Grove this afternoon at 3 o'clock.

The remains of Mr. Wm. Tatro, chef at the Palmer house, who died suddenly Saturday afternoon from apoplexy, will be shipped tonight to Danville, Ill., his former home, for burial.

Mrs. Susie Garretson, aged 80, died from a complication of diseases at the city hospital yesterday. Her former home was on North Third. The remains were buried in Oak Grove.

Wm. H. Carr's two-year-old son died at 315 Madison street yesterday, funeral today at Oak Grove.

Lillian Hall, a several months' old infant, died yesterday at 1632 Broad street.

WINDOW ROBBED

B. WEILLE & SON ARE MINUS SEVERAL ONE DOLLAR BILLS.

Thieves Entered the Rear of the Store by Means of a Ladder and Stole Money Used for Advertising.

When Mr. Ben Weille, of B. Weille & Sons, opened up this morning at 6 o'clock he found that the dollar bills that decorated the festive and fashionable shirts in his show window were missing.

An investigation developed the fact that thieves sometime during the night placed a ladder to one of the rear windows, entered, came down and tapped the cash drawer, from which about \$10.50 in coppers and 50 cents in nickles, were taken. This is all the money not placed in the safe Saturday night.

After robbing the cash drawer the thieves went to the front window and took all of the one dollar bills with the exception of three or four. There were about thirty-eight of them in all, one bill being stuffed in each shirt as an attraction.

The police are confident the theft was committed by boys, but thus far have made no arrests.

LYNCHING

Sensational Character of an Affidavit Sent from Mayfield to Louisville Post.

DEATH FOR THE SUSPECTS

Was the Agreement of the Goebel Gang if They Lost the Offices by

DECISION OF SUPREME THE COURT

LOUISVILLE, July 9.—The Post prints a sensational statement from Mayfield relative to Goebel suspects. The statement is embraced in an affidavit signed by J. W. Pryor, W. L. Landrum, S. M. Brann and H. E. Council, in which the allegation is made that they heard L. B. Anderson, Auditor of State Gus Conlter's brother-in-law, say on June last that if the decision of the supreme court had been favorable to the Republicans it was arranged to take the Republicans charged with Goebel's assassination from jail and hang them one and all. The parties to this affidavit are all well known and their word is good.

RAILROAD NOTES.

Master Mechanic Barton Out—Other Illinois Central News.

The transfer boat Osborne blew out a cylinder head yesterday afternoon and was towed over with the St. Louis train by a tug. The damage was repaired last night and the boat made her trips as usual today.

Master Mechanic T. F. Barton, of the Illinois Central, was at his office again today, but is not yet entirely well.

The Fulton Leader says: Just north of the depot is one of the finest pieces of work ever done in Fulton. The Illinois Central people have reduced the road bed of the old switches two feet for a distance of two hundred yards. The ground is now as level as a floor. As soon as the long switch tracks are relaid, the main track will be taken up and the bed reduced two feet. This difficult work is being accomplished perfectly.

The executive officers of the Illinois Central are considering a plan for the pensioning of old employees, based on that now in effect on the Pennsylvania railroad. While the plan has not yet been decided upon, the company is getting information regarding the men it would effect. The Burlington railroad is also considering the same plan for its employees.

The Illinois Central is to reduce its schedule time between Chicago and Omaha to twelve hours. The road was opened for traffic less than a year ago, but is doing a very heavy business on a schedule of fifteen hours.

George A. Poore, for twelve years chief clerk for General Superintendent Sullivan, of the Illinois Central, has resigned to go with the Delaware, Lackawanna and Western.

The new signs that have been placed up at the local Illinois Central freight depot are large and conspicuous and will leave no doubt in the mind of a spectator what the buildings are.

Governor Beckham has issued notices ordering elections to fill several vacancies in the general assembly. The fact leads to the idea that he intends also to call a session of the legislature after the Lexington convention to name a candidate for governor.

This government will send more troops to China for its moral effect.

COUNCILMEN BACK.

The Paducahans All Enjoyed Their Trip Very Much.

Councilmen Davis, Gilson, Jones and Hannon and Contractors Porteous & Patterson returned last night from Chattanooga and Nashville, where they went in company with Contractors Porteous and Patterson to inspect the brick streets.

They were hospitably received by the city engineer, chief of police and other officials and royally treated by every body.

They found many brick streets which had been down from five to nine years. The nine year streets, on which no repairs have ever been made, were remarkably good yet, according to the Paducahans, much better, in fact, than they expected to find any nine year old street.

They stopped over in Nashville from 11 o'clock Saturday morning until 7 o'clock yesterday morning and were also well treated there. There are only a few brick streets in Nashville.

NOTED CASE.

Physicians Win a Big Damages Suit at Marion.

In the \$30,000 damage suit at Marion, Crittenden county, of Fred Kirch and wife against Dr. J. B. Haydon and J. H. Grassom, of Salem, Ky., the jury returned a verdict for the defendant. The plaintiffs allege malpractice on the part of the physicians and that the wife has become a cripple for life as a result thereof. The suit attracted wide attention in Crittenden and Livingston counties where Mrs. Kirch was widely known. Ollie James managed the case for the defendants and his speech is said to have been the best ever made in the court house at Marion.

The convention which is to nominate a Democratic candidate for the Ashland district will meet tomorrow in Lexington. Apparently, from returns, the Goebel faction, which is represented by Candidate Trimble, has the advantage, as the opposition has split.

After remaining Chairman Jones, which was another dictation of Boss Bryan, the Democratic National committee adjourned Saturday very hopeful of the outlook, says their press.

Senator Hanna says the Kansas City platform just suits him. He declares it could not possibly have been weaker.

TAKEN UP

Trial of the Goebel Suspects Called Today at Georgetown Before the Circuit Court.

BOTH SIDES ARE READY

Powers First Arraigned—Recess Until This Afternoon—Big Array of Legal Talent.

CULTON AND NOAKS FOR THE STATE

GEORGETOWN, Ky., July 9.—Contrary to general expectations the state was ready for trial of the Goebel suspect cases when court assembled this forenoon.

There was a smaller crowd present than anticipated and every evidence of good order shown and still prevails.

The case of Powers was first called. All declared themselves ready. Powers looked pale but was smiling. After swearing the witnesses and the prosecution asking for Culton and Noaks, the prisoners at Frankfort, as witnesses, the court took a recess until 2:30. Powers, it is said, will be ready for trial then, in spite of opinions to the contrary.

There is a big array of talent on both sides. Bob Franklin, prosecuting attorney of Franklin county, heads the prosecution, along with Tom Campbell. Governor Brown leads the defense, along with ten others.

Judge Cantrill compelled the search for arms of everybody entering the court room.

GEORGETOWN, 2:40 p. m.—The court after reconvening this afternoon adjourned until tomorrow morning at 9 in order to give the defense more time for conference and to secure witnesses.

After remaining Chairman Jones, which was another dictation of Boss Bryan, the Democratic National committee adjourned Saturday very hopeful of the outlook, says their press.

Senator Hanna says the Kansas City platform just suits him. He declares it could not possibly have been weaker.

PROPERTY SOLD.

Master Commissioner Gip Husbands Makes Several Sales.

Master Commissioner Gip Husbands this morning, at the court house, made the following sales:

The George Lehnhard property, on Harrison near Twelfth to John, left, for \$700.

The J. R. Cobourn property on Tennessee street to Joe Gardner for \$375.

The J. H. Newman property on the Cairo road to Nannie Newman for \$500.

Five lots of the T. H. Puryear estate to B. H. Scott, for Mrs. Ella Puryear, for \$1538.

CALLED MEETING.

The Council to Consider the Lowering of a Pavement.

Mayor Pro Tem G. R. Davis, who is acting during the absence of Mayor Lang, has called a meeting of the council tonight to settle the matter of lowering the pavement in front of the New Richmond hotel.

The new ordinance requires it to be considerably lower than it is, which would necessitate steps in front of the various stores, and it is understood to this some of the tenants are not willing to agree.

The Arcade will sell you a beauty in a hammock this week at a ridiculously low figure.

THE C. & E. I.

One of the Agents Here on a Brief Visit to Mr. W. A. Davis.

General Freight Agent Nickerson, of the Chicago and Eastern Illinois railroad, which is building into Joppa, Ill., was in the city a day or two ago a guest of Mr. W. A. Davis, the lumber man. He has made two trips to Paducah, but they have no significance so far as the road's building into Paducah is concerned. It will be several seasons, at least, before the road crosses the river.

REPUBLICAN TICKET.

For President,
WILLIAM M. KINLEY,
Of Ohio.

For Vice President,
THEODORE ROOSEVELT,
Of New York.

There was more important legislation transacted during the last session of congress than in any other similar period. At the next session two of the most important measures will be the Nicaraguan canal construction bill and the restoration of American shipping.

Do not lose sight of the Dingley bill as having been passed under this administration. It opened the mills and gave wage-earners a chance to again earn a living.

President McKinley has strenuously urged the fulfillment of every campaign promise made in the Republican platform of 1896. In this he has been supported by the representatives of his party in congress, as the result has been much legislation of a valuable character, as well as faith kept with the people.

Bryan will never ride his hobby to the white house.

Japan is to be permitted to chastise China for late had conduct. That the work has not been sooner done the powers alone are to blame. They allowed red tape to prevent the stoppage of the flow of red blood. But the chastisement is due and should be quickly given.

Bryan having been nominated on a platform which he demanded against and over the wishes of nearly one-half of the national convention at Kansas City and the party as well as no one but himself to blame that defeat awaits him in November.

The only business that doesn't show decided prosperity is the attempted election of Democrats to office upon antique platforms which have been dead for years and carefully buried by the votes of the American people.

The howl upon which the Bryanites seem to build their hopes is the cry to turn the scales out, and this has been answered by Mr. Joseph Pulitzer, himself a strong Democrat, who asked, "Why turn the scales out only to let the lunatics in?"

Mr. H. H. Hanna, the leading gold Democrat of Indiana, and possibly of the United States, gives it as his opinion that the gold Democrats will all most universally support the Republican ticket this fall. If consistent, they will certainly do so. The defeat of Bryan will bury the free silver fallacy, and it is to everybody's interest that it shall be buried so deeply as to forever preclude resurrection.

Only three vice presidents have ever succeeded to the presidency by the vote of the people—Jefferson, Adams and Van Buren having been the men thus honored.

The Louisville Courier-Journal takes the work of the Kansas City convention like it would a spiced lemonade, a mint-jelly, a stone fence, or a Minnie Taylor, only exclaiming "a vile victor," and "double-leading," "a volcano and a half to hold the dose down. The C-J is in its dotage clearly.

The St. Louis Star in commenting upon the unideal conditions in China would say, "It's Uncle Sam's duty in the premises to protect his citizens and to plant his foot in the opening of the door that has been kept open. It is not his business to jump other nations in the attempted division of the empire, but on the contrary to use his good offices to protect its integrity. War against the other powers for that purpose is hardly to be thought of, and yet who can tell what complications the United States may be drawn into. In the meantime, Uncle Sam is competent, and honest statesmen in charge of his affairs, and they can be trusted to work out the problem for the best interests of all." This is all there is in the middle for Americans. The solution will come in time.

Political wisecracks are saying now that Roosevelt will be the head of the Republican ticket in 1904 and that Hill will be the head of the Democratic ticket the same year. Four years is a long time to wait, though Bryan seems not to think so.

The Louisville Dispatch as well as the Post seems to have it in for our M. C. These papers will "blow" him with or without provocation.

The glibbing Democrat is just now a "sawyer of wood."

Things may not have been cut and dried for the Kansas City convention, as the Democratic press claims, but they were certainly odd. Bryan tossed the job down to the naming of

a running mate and he tried his at that and no doubt succeeded way. Not cut and dried, but well oiled.

Stevenson stayed away from the Kansas City convention and sent to him what several delegates couldn't get who were present with lightning rods up their backs.

Aguinado still lives and the Philippines continue to give trouble in the Philippines. A big reward for Aguinado might end his career and the insurrection. Other offers having failed this one might be tried with success.

The work of Bryan and Croker to kill off Hill at Kansas City is certain to prove a boomerang. Croker is only a small part of the great east, as Bryan will soon learn.

As to the hot-weather advice now being so freely distributed there is really only one suggestion that is of any real practical value—if you can't keep cool, keep as cool as you can.

Croker did good work for the Republicans at the Kansas City convention. To rub his political enemy Hill into the earth he made certain the way New York would vote in November. The old Tammany brave cares little, however, which way the political cat jumps so long as he can be the "big chief" and scalp those whom he hates.

This is the time of the year when Paducah recognizes the need of public squares—comfortably seated and well lighted and shaded and conveniently watered lolling places. It takes these things—or rather parks—to make cities, but in the absence of parks squares will do. Can't our council look to this lack of city ways and do something for the future if not for the present?

If there is as much dissatisfaction elsewhere over the Kansas City ticket as there is in "these parts" then it is dead easy sailing for the Republicans. This old Democratic stronghold is as calm about the ticket and as mum about the platform as if the party had already heard from the election and knew it was another Waterloo. Annanias would rise up to question the veracity of the man who would say that there is any enthusiasm among the Democratic party over the work of their national convention.

The Lexington Herald (Dem) says Bryan will lose New York and Kentucky. Then what folly to talk of his election.

A PLEA FOR TODAY.

Editor Stephen O'Meara, of the Boston Journal, delivered the oration in Faneuil hall on the glorious Fourth, and his speech was something of an innovation in that historic building, as the Memphis Commercial-Appel says.

Mr. O'Meara spoke on the patriotism of the sons of patriots, and he very justly claimed that the men of today are equal in ability, statesmanship and patriotism to the men of any age, and he condemned those critics who exalt "the virtues of past generations" and magnify the faults of their own. O'Meara combatted a weakness of human nature that exists throughout the world, that has always existed and which is likely to always exist.

Everything remote, seen through a delusive haze, appears beautiful; and the present with its fresh creations that still show the marks of the artist's tools, is contemptible.

In the remote past men walked with God, talked with Him, were advised, admonished, reprimanded and punished by Him. These, the perfect days. Farther down the drift of time we find days in which there were giants and men of might. Then came the prophets and seers and holy men. Came great statesmen, patriots and warriors afterwards, and the world has been filled with their praises. Each day condemns and belittles the men of its own time and carries its garlands and its glorifications to the tomb of the yesterday. "I believe," said Editor O'Meara, "that our country, its government, its people and its public servants are wiser and stronger than ever before," and he is right. The foolish infatuation that blinds people to the achievements of the present and which satisfies itself with crooning the praise of the past cannot disprove the assertion. Civilization that went down with the fall of Babylon has been rescued from its embarrassment and is progressing. Men are greater today than ever before because they have greater facilities.

A modern regiment equipped with rapid fire and long range guns could vanquish the armies of Xerxes. It could defeat the armies of Jena, Austerlitz or Waterloo. The Oregon could sink all the ships engaged at Trafalgar, in the Nile or elsewhere.

Developmental processes are constantly at work. To say men have not improved is as foolish and futile

the little "love" of evolution has not improved, that the rose has not improved, that the strawberry, the apple, the peach, the horse, the dog or anything else has not improved. Everything worth preserving is dying out or becoming rudimentary.

It is gratifying to find some one to say a good word for the despised present, and who would break away from the idolatrous worship of the past. No sane man would change the present for the past. The "good old times" is a good old fraud that, like many of the alleged great men of the past, is exploited much beyond its deserts.

"BLOTS" UPON THE STATE.

Mr. Beckham, who, by invitation, made a speech at Kansas City, said: "I want to say to you, if any blot or stain has been placed upon the state it has been placed there by those who have not voted and will not vote the Democratic ticket."

Commenting upon these words the Louisville Post says: "There are two serious blots upon the history of the state of Kentucky, placed there during the past six months. One is the assassination of William Goebel. It is not known even to Mr. Beckham whether the man who fired the shot was a Democrat or a Republican, whether he voted for or against the Democratic ticket. It is an assumption to say, therefore, that that blot was made by a man opposed to the Democratic party."

"The other blot is the usurpation of power proclaimed by the presence of every usurping Democratic official in the state. This blot is the deepest ever placed upon Kentucky history. It is as foul a blot as blackens the page of the history of any state in the union. It is without palliation and without excuse. It is the result of conspiracy brought about by the desperate conditions of despotic officeholders and office-seekers, men unable to earn a living out of the public service and ready to accept the fruits of fraud, even when they themselves deprecate the act."

Mr. Beckham, your mouth is too large.

COCKRELL'S LIFE SAVERS.

Eating apples for lunch has become a fad in the senate, and Senator Francis M. Cockrell of Missouri is responsible for its introduction. For some time it has been the custom of the Missourians to steal away from the senate chamber after the morning hour and go to the democratic cloak room for a lunch. Upon the senator's midday menu there is just one article of diet, and that is apples.

Mr. Cockrell is a man of considerable capacity for work which is the marvel of the senate, and he attributes his splendid health largely to his free use of apples and especially to his daily lunch on apples exclusively. Taking notice of the Missouri's good color, steady nerve and notable endurance, other senators have adopted the apple habit and find it beneficial. Senator Cockrell is one of the veterans of congress. Jones of Nevada and Allen of Iowa are the only senators who outrank him in length of service. The senatorship which he has filled since 1875 is the only public office which he has ever held. He was probably the foremost lawyer in Missouri at the time he was elected to the senate.

To Cure Shying Horses. Horses often have what is called the vice of shying, that is, of starting suddenly at the rustle of a leaf or a piece of paper, or at the approach of any object to which they are not accustomed. Clearly this is the result of an instinct inherited from their wild progenitors in the steppes or prairies, where the sudden rustling of a leaf might indicate the presence of a wolf, and where everything that was strange was, therefore, suspicious. It is idle as well as cruel to beat a horse for shying. That only increases his alarm, and may easily reduce him to a state of terror in which he loses his head entirely. Horses in that state seem to lose not only their heads, but their perceptive senses, and a horse in that condition may dash headlong against a stone wall. The habit of shying, when once formed, is difficult to cure, but it may almost always be prevented by such constant kindness of treatment as to overpower the inherited instinct of instant flight from possible danger in which the habit originates.—Our Animal Friends.

HERBINE clears the complexion, gives buoyancy to the mind, cures headache, regulates the stomach and bowels, stimulates the liver, and in fact, a perfect guardian of the health. Price, 50 cents. For Sale by DuBois & Co.

THE STRUGGLE FOR MONEY

How Herber H. Vreeland, the Head of the Surface Lines of New York, Reached the Goal He Selected While a Youth.

A MIGHTY RAILROAD IN HIS CONTROL

The story of how this man or another reached the top in the struggle for wealth and power is always an inspiration for those at the bottom. A striking instance of perseverance and its reward is found in the career of H. H. Vreeland, president of the Metropolitan Street Railway company, whose genius directs the operations of the surface railroads of New York.

Mr. Vreeland has recently been before the public in connection with the deal by which the Third Avenue line became a part of the Metropolitan company's property. He began his active life as a grocery clerk; today he sways a great corporation whose earnings amount to \$18,000,000 a year and is regarded as the foremost street railway man in the world.

Vreeland comes of Mohawk Dutch stock and was born forty-three years ago in the village of Glen, near Amsterdam, N. Y. At 10 years of age he was driving a grocery wagon. His next occupation was cutting ice on the Hudson river. At 25 he took to rail-

roading, his first occupation being to shovel gravel on a night construction train on the Long Island railroad.

Vreeland made up his mind then that he would some day be president of a railroad. He felt nearer the presidency when, a few months later, he was promoted to track walker at \$1 per day. Not long thereafter he was sent to Bushwick to tend a switch. At night, when his duty at the switch was over, he would go to the station and help the accountants in the division superintendent's office. He was not asked to do this work, but often he poured over traffic figures until midnight, because he expected to be president of a road some day. The Bushwick job did not last long, for the switch was taken out and Vreeland was told he was not wanted. But he could not be driven away and was finally sent to work as a car duster. Not long thereafter he was made a brakeman. One morning one of the older men bantered the ambitious young fellow. "Well," said he, "I suppose you think your fortune is made, now that you're a brakeman; but let me tell you what will happen. You'll be a brakeman four or five years; then they'll make you a conductor, and there you'll stick all your life, if you don't get discharged." "Do you think I'm going to be a conductor all my life? I'm going to run a road some day," the young fellow replied hotly. The old railroad man burst out into a hearty laugh. He told the story around among the men on the road, and everybody thought it was a huge joke. "President" was the nickname this story gave to the young brakeman, and often after that his routine instructions came to him addressed "President" Vreeland. But these taunts did not daunt Vreeland. One day a conductor was discharged, and Vreeland was sent out with a train in his stead. The crew of the train, chagrined by Vreeland's rise over their heads, refused to go out with him. He took out a new crew and ran the train for several months, until he and his engineer lost their places because of an accident for which they admitted equal responsibility. Vreeland asked to have another trial, and he was taken back as a brakeman. One day he went out on a special train, carrying the directors of the road. On the ride they asked the big brakeman questions about the road; he answered them all. The next day the president of the road, impressed by what the directors had told him, sent for Vreeland.

"What are you doing?" he asked. "Braking No. 17," replied the young giant. "Here," said the president, abruptly, "take this letter to your superintendent. It asks him to relieve you from duty and put somebody else in your place. Come back here, afterward." When he returned he was informed that he was to be the president's confidential man. Here he learned the ins and outs of railroad management. After a few years the management changed hands and he was out of a job. He found another as conductor on the New York & Northern railroad, and a few years later was trainmaster. He introduced some new features, and when William C. Whitney took charge of the road as owner he took an interest in Vreeland. He entered the management and was made general superintendent. Not long thereafter Vreeland was made president of one of the street car lines of New York city in which Whitney was director. That was the beginning of the great Whitney system of New York.

KENTUCKY ELKS.

Louisville Lodge to Get the Prize for Membership.

Messrs. Al C. Atkins and H. P. Nunn left yesterday morning for Louisville to join a party of Kentucky Elks who left for the grand lodge at Atlantic City. Louisville lodge will doubtless get the prize offered for membership, having 750 members.

The proposition of Mr. W. S. Stratton to give \$100,000 for an Elks' home in Colorado does not meet with the approval of the Kentucky delegates, as they think a more central location as to population is preferable. Mr. Stratton was originally from Jeffersonville, Ind., and went to the Cripple Creek mining center with nothing, but is now a millionaire and wishes to do good with his means.

The Kentucky party left over the B. & O. S. W., and consisted of Messrs. R. W. Brown, Zack Phelps and two sons, Harry Brennan, Ed Marret and wife, R. S. Brown, wife and daughter, N. F. Pfeffer and wife, Mrs. Struber, Albert Strauss, Al Dreyfus, William E. Riley and wife, W. Allen Kinney, David Hirsch and wife, Louisville; W. B. Brock, of D. Oldham, Lexington; Alvin Atkins, H. P. Nunn, Paducah; E. Howard, Jeffersonville; Jas. Webb and family, Bowling Green; Mrs. Brigham, New Albany; George T. Charles, L. Nahn, Bowling Green; J. P. Hanley, Frankfort; T. G. Little, Lehigh, Hopkinsville; J. Lyddane, Owensboro; Louis Bir and family, Joseph Williamson and family, Page Poliam, Evan Prosser, New Albany; Mr. and Mrs. Louis Oberdorfer, Dr. and Mrs. Louis Browning.

THE DESERTED VILLAGE.

Seven Remains to Inhabit Vast Property of the Harmonists.

Writing of communistic experiments, Arthur Henry draws this dramatic picture of the decline of the Harmonists: "At the present time, 23 years later than that at which Aaron Williams wrote, there are but seven members of the Society of Harmonists. Four aged women and one man, all over 70, and John Buss and wife, who are about 40, are all that remain of this once prosperous hive of people. Most of the factories have disappeared. The great barns that once sheltered the hundreds of cattle are empty. The flocks and herds are gone. The broad fields are untended. The town, while still preserving its ancient semblance, is inhabited by another people. The houses, hotel, and store are all rented. Many of those now occupying the quiet, vine-covered dwellings work in the pits. Some are the hired hands, employed to do the little labor still required by the society. Few of the people now living at Economy know anything even of the history of the former inhabitants. Not one in twenty can point out to you where the surviving Harmonists reside. These aged remnants of the society are seldom seen. Now and then two of the more active women appear hand in hand and walk slowly, silently through the street to the store or wine cellar, to the meeting-house, or garden. Joint possessors of a vast estate, they dress in plain, old-fashioned gowns of calico, gingham, or what vegetables they still have strength to care for, and busy themselves from dawn to dark about their households. It has been many years since any of these aged ones have needed to work at all. Whatever they desired would have been theirs for the asking. But the greatest distress that can befall them is to fall for a day in the little strength still left them, to do the work of their house and garden. While celibacy was thus operating at Harmony other causes were working the gradual withering of the communities elsewhere. In January, 1857, an inventory showed the Wallingford and Oneida Perfectionists to be worth over \$67,000. In the next 10 years, their net profits amounted to \$180,000. In 1874 they were worth over half a million. Yet today, still controlling vast property, they are but few in numbers, and, as a community, nothing."—Albion's.

TAKING DEPOSITIONS

City Attorney Lightfoot in New York on Business.

City Attorney R. T. Lightfoot has gone to New York to take depositions in the suit of Roberts & Co. against the city of Paducah for damages.

The company purchased a large number of refunding bonds, but when the time arrived to refund them the city backed out, claiming that the bonds could not be refunded because they were illegal to start with. Roberts & Co. finally sued for \$10,000 damages, and the suit is to come up at the November term of the United States court here. Attorney Lightfoot will be absent a week or more.

POT HERBS.

The Wild Cabbage, Sea Beet and Mercury of England.

In its strict sense, as used by the early botanists, a pot herb is a "herb that serves for the pot," and of these we have a considerable number in our native flora, says Longman's Magazine. Among them may be mentioned the wild cabbage, sea beet and mercury. The use of the wild cabbage, or sea colewort, is hardly extinct yet. It is still gathered by the peasants on the sea cliffs of Devonshire in hard winters when garden produce is scarce. This plant is the origin of our garden varieties, such as cabbages and brussels sprouts and brocoli and cauliflower and has been cultivated from very early times. The great naturalist, John Ray, noticed it growing wild on Dover cliffs, where it still flourishes in remarkable abundance. Indeed, in summer time the white chalk cliffs from Dover to St. Margaret's bay are gay with the pale-yellow blossoms of this plant. It may also be seen in considerable plenty on the picturesque cliffs which command the entrance to Dartmouth harbor, in South Devon. In the Isle of Wight it was formerly abundant (A. D. 1665), especially on the Culver cliffs, between Bembridge and Sandown; but for some reason which it is difficult to discover the plant has become very scarce of late years. The sea beet (beta maritima), sometimes called sea spinach, the origin of our beet-root and mangold wurtzel, is a common plant near the sea. It is mostly abundant in salt marshes and on banks and waste places along the shore. Fifty years ago the young leaves were regularly gathered by the poorer classes in the Isle of Wight and "botted and eaten as greens with the pork or bacon which then formed so constant an article in the dietary of our Hampshire peasantry." Occasionally the plant is so used now, and it certainly forms an excellent substitute for spinach.

WHAT IS Uncle Sam's Loss Is Another Man's Gain.

Ex-Postmaster-General James A. Gary in the Youth's Companion: She drops the letter in the postoffice at Key West, and it starts on its long journey to the Klondike. It does not, of necessity, travel in a straight line to its destination, but it follows the twisting and turnings of the railroads, which have complete charge of it until the northwest corner of the state of Washington is reached. When it arrives at Seattle it has passed through fourteen states, and yet, so far as time is concerned, but a few minutes of the journey has been accomplished. It now takes a sea voyage from Seattle to Juneau, Alaska, and from the latter place is carried to Circle City. It may be taken from there by friendly hands further into the Klondike country, and finally delivered to the anxious prospector, who has been eagerly awaiting the arrival of the next party from the nearest town in which a postoffice is conducted in the hope that some one would bring him a letter. This letter now travels in the neighborhood of 7,000 miles by railroad, steamboat, stage, horseback, and, perhaps, dog-sled—and has been on the road for nearly forty days without a moment's rest! No profit, in money, accrues to the government for delivering that letter; indeed, each letter sent into the Klondike costs the government transportation many times the amount of postage charged; but in such cases we reckon the profit only in dollars and cents? Should we not consider also the happiness and satisfaction afforded this brother as he sits by his fire, perhaps homesick and lonely, but now with a loving smile illuminating his face, as he reads and reads again every word his thoughtful sister has written about home, mother and father, and perhaps of some one else whom he holds dear? When, finally, he places his treasure under his pillow and seeks rest he is happier than for many a day; and Uncle Sam, who has contributed so largely to that happiness, does not regret the small pecuniary loss he has sustained.

Edison's Religion.

This is what Thomas Edison said in reply to a question addressed him by an agnostic: "Why, after years of watching the processes of nature, I can no more doubt the existence of an intelligence that is running things than I do the existence of myself. Take, for example, the substance water that forms the crystal known as ice. Now, there are hundreds of combinations that form crystals, and every one of them save that of ice sinks in water. Ice, I say, doesn't. And it is rather luck for us mortals, for if it had done so we would all be dead. Why? Simply because if ice sank to the bottom of rivers, lakes and oceans as fast as it froze, those places would be frozen up, and there would be no water left. That is only one example out of thousands that to me prove beyond the possibility of a doubt that some vast intelligence is governing this and other planets."—Cincinnati Enquirer.
